ABOUT US

Founded in 2011, WisdomPhilanthropy began as a private foundation supporting individuals and communities facing real needs. As the scope of our work expanded, we transitioned into a public 501(c)(3) nonprofit to responsibly and sustainably scale our impact.

We focus on practical solutions, empowering people with the tools, resources, and guidance needed to create real change. Our work spans disaster relief, education, leadership development, and community-led social impact projects.
